

# Ride Organisers Guide to Calendar Rides 2018-19

## What's Changed

- Parameters around each Brevet Type have been clarified in relation to:
  - Unsealed kilometres
  - Over nominal distance kilometres
- Dual homologation of BRM rides, first as BRM, then as BA or BG depending on the completion time is no longer permitted. In these cases, a Ride Organiser must now register both brevet types and a rider must elect on registration the brevet type they are entering.

**For all but a handful of rides, there is no impact. However please enter Actual Distance (not Nominal) for all Brevet Types.**

**Calendar Brevet Type Summary Table**

<b>Brevet Type</b>	<b>BRM/LRM</b>	<b>BA/BP</b>	<b>BD/BPD</b>	<b>BG/BGP</b>
Nominal Distances	200, 300, 400, 600 & 1000 km (BRM), 1200+ km (LRM)	50, 100, 150, 200, 300, 400, 600, 1000 & 1200+ km	35, 70 & 100 km	50, 100, 150, 200, 300, 400, 600, 1000 & 1200+ km
Calendar Entry	Actual distance	Actual distance	Actual distance	Actual distance
Kms Over Nominal	No extra time allowance	Extra time allowed	Extra time allowed	Extra time allowed
Over Nominal Restriction	Actual length must not exceed nominal by the lesser of 10% or 40 kms <sup>2</sup> ie. 220 km, 330 km, 440 km etc.	Actual length may exceed nominal by the lesser of 40% or 50 kms	No restriction	No restriction
Unsealed Surface Restriction <sup>1</sup>	Must not exceed 15 kms unsealed surfaces <sup>2</sup>	May have up to 40% unsealed surfaces	Mainly single track and fire trails	Must have at least 40% unsealed surfaces

<sup>1</sup> The number of unsealed kilometres can be entered when a ride is proposed or can be changed by a Calendar Coordinator. Entering 0 indicates a fully sealed route.

<sup>2</sup> Where a calendar entry exceeds the BRM restrictions, the RO must offer it first under the appropriate BA or BG rules, then as a BRM. A rider must then elect on registration the brevet type they are entering (refer Pages 2 & 3 for examples).

## BRM Examples for Over Nominal Distance or Unsealed Surface Restrictions

### Over Distance BRM (250 kms exceeds the BRM Over Nominal Restriction)

Dist / Brevet	Start	Details	Map	Cost
150km BA ?	6:20 AM	-	<a href="#">Map</a>	\$6 (mbrs) \$16 (Non)
200km BRM ?	6:20 AM	-	<a href="#">Map</a>	\$6 (mbrs) \$16 (Non)
250km BRM ?	6:20 AM	-	<a href="#">Map</a>	\$6 (mbrs) \$16 (Non)
250km BA ?	6:20 AM	-	<a href="#">Map</a>	\$6 (mbrs) \$16 (Non)

Correct definition, the same route is offered firstly as a 250 km BA (extra time allowed, 16h40 time limit) and with an additional 250 km BRM option (homologated at the nominal 200 km BRM distance with a 13h30 time limit). A rider can elect on registration the brevet type they are entering for the 250 km.

### Over Unsealed Surface Restriction BRM (35km unsealed exceeds the 15km BRM Unsealed Surface Restriction)

Dist / Brevet	Start	Details	Map	Cost
200km BRM ?	6AM	A mixed terrain ride with the highlight being the 35km dirt "sector" between Bucketty and St Albans.	<a href="#">Map</a>	\$6 (mbrs) \$16 (Non)

The ride needs to be offered primarily as a 208 km actual distance BA (13h52 time limit) with an additional 200 km BRM option (13h30 time limit). A rider can then elect on registration what brevet type (and hence time limit) they wish to undertake the ride in.

# Over Unsealed Surface Restriction BRM (running a BG ride with at least 40% unsealed surface as a BRM)

Dist / Brevet	Start	Details	Map	Cost
116km BA	7:15 AM	-	<a href="#">Map</a>	\$6 (mbrs) \$16 (Non)
200km BRM	7:15 AM	-	<a href="#">Map</a>	\$6 (mbrs) \$16 (Non)

The ride needs to be offered primarily as a 200km BG (16h00 time limit) with an additional BRM option (13h30 time limit). A rider can then elect on registration what brevet type (and hence time limit) they wish to undertake the ride in.

For supported dual BG/BRM rides it is not necessary to offer the same support for both, given the extended control times for the BG option. Registration information will need to make this clear. The BG option may also start earlier to compensate for the extended control times.
