<https://www.audax.org.au/portal/rides/register-calendar/1334-festum-prophetae-2-day-bikepacking-gravel-tour-2019> (MTB Bikepacking Tour)

**Entries close at 12:00pm on Friday 14<sup>th</sup> June 2019**

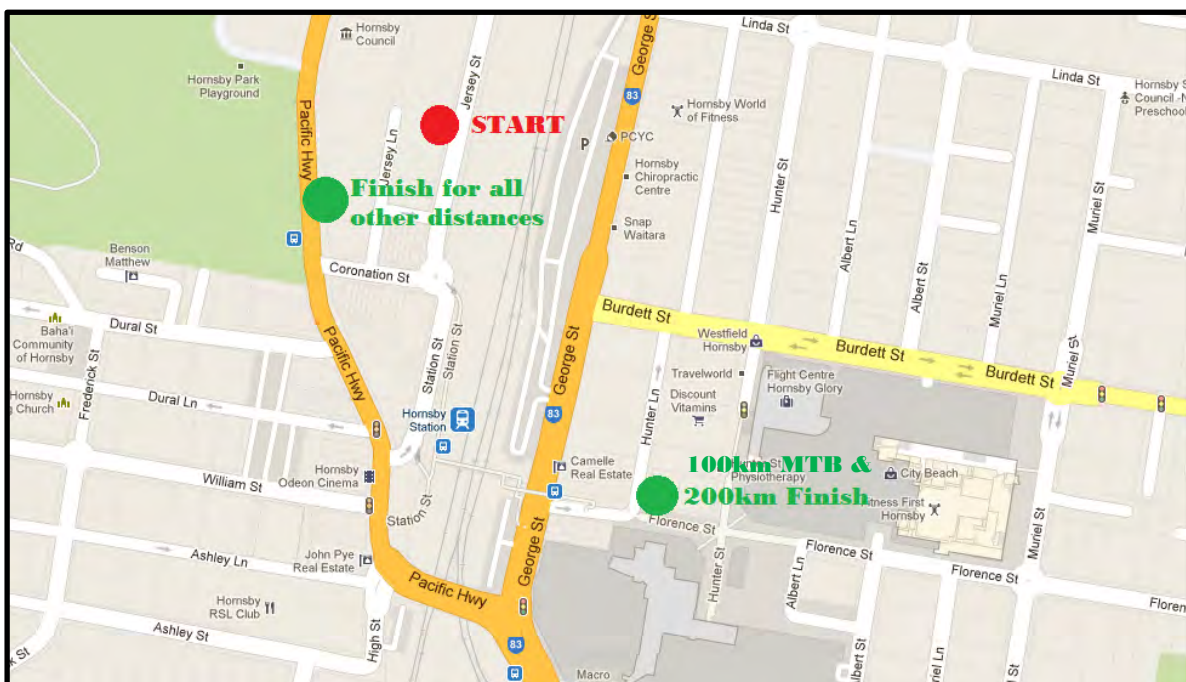

### Start Location:

Jersey Street, Hornsby (All day street parking is available)

### Finish Location:

100km (MTB) & 200km: Olive Bar & Grill, Florence Street (Hornsby Plaza)

300, 400, 600km & MTB Raid: Hornsby Police Station – 292 Pacific Hwy, Hornsby

**Start Time:**

The ride starts at 6:00am sharp. Please **arrive by 5:45am** for admin. Please arrive ready for the lighting and reflective vest inspection.

**Lighting:**

Australian road rules require cyclists riding at night or in reduced visibility to display:

- a flashing or steady white light clearly visible for at least 200 metres from the front,
- a flashing or steady red light clearly visible for at least 200 metres from the back, plus
- a rear red reflector visible from 50 metres.

**ALL** riders are responsible for complying with the Australian Road Rules. For further information and safety recommendations please refer to the the following page:

[https://www.audax.org.au/public/images/stories/Documents/National\\_Docs/Audax\\_Australia\\_Safety\\_Recommendations.pdf](https://www.audax.org.au/public/images/stories/Documents/National_Docs/Audax_Australia_Safety_Recommendations.pdf)

**Food/water:**

This ride is unsupported however food and water is readily available along the route and at the control locations. Public toilets are available at the control locations.

**Cancellation:**

**Should you have to cancel at the last minute, please send me a text message before the ride start.** My mobile number is at the top of this document. A credit note for the full entry fee will be issued to you if you cancel any time prior to the ride start.

**Post Ride:**

Your brevet cards will be processed after the ride and then sent back to you. Therefore, when you have finished you may send the brevet card in the post (address is at the top of the document). In the event that we finish at the same time then of course you may hand the card straight to me.

**Terrain:**

The ride is a mixed terrain event so along with the usual sealed roads that we are all used to, there will also be many sections of dirt roads along the vein of the Strade Bianche one day Classic in Italy. This will certainly add an additional challenge in terms of bike handling. It would be recommended that you fit slightly wider tyres for the event for extra surface area/grip on the dirt sections. 28mm tyres would be ideal.

All Mixed Terrain Rides include the monster 35km dirt 'sector' from Bucketty down to the small town of St Albans. As the distances increase the dirt sections get more and more epic. The dirt climb up Brush Creek Rd will certainly be the highlight of the 300km event. The 400km and 600km events also include the extremely technical dirt descent and climb through the Wheeny Creek Valley in the Wollemi National Park.

The ride is certainly going to be adventure off the beaten track along some remote sections of road that most riders hopefully won't have seen before

**A Note on the 600km Route:**

The 600km route is comprised of two large loops. The course returns back through Hornsby and is designed so that the rider has the ability to self-support. You have the option to only deviate a few hundred metres off course to return to your car to restock supplies if you plan to continue on riding through the night on the second loop. The checkpoints on the second loop are in locations with 24 hour services. Alternatively you have the option to seek accommodation in Hornsby or of course drive home and sleep in your own bed before returning to Hornsby on Sunday morning to head out onto the second loop.

**MTB Options:**

2019 sees the introduction of two MTB options to the Festum Prophetae event. The 100km event might seem short but it packs a fair punch with plenty of technical riding and steep climbs/hike-a-bikes. Riders will need to maintain a steady pace in order to make the 10 hour cutoff.

The 250km MTB Bikepacking Tour Raid is the first of its kind for Audax and will see riders tackle some very challenging gravel roads, fire trails & singletrack. With a fully loaded rig there will be plenty of hike-a-bike to go around. As challenging as the ride is it will be equally rewarding with some stunning scenery along the way. Being a Raid riders may ride at their own pace, either completing it as quickly as possible or simply maintaining an average speed above 60km per day. There are a number of campsites and resupply options along the way for riders to choose from.

## Elevation Profile:

## Cue Sheet:

Due to the nature of the firetrails and singletrack being unmarked in places I wouldn't recommend attempting the ride navigating with a cue sheet, A GPS device is definitely recommended. A full cue sheet can be generated on the Ride with GPS page should you wish to download one.
